

Connecting to PSU Secure Guest Wi-Fi

1. From the WiFi settings on your device, select *PSU Secure Guest*

2. The password for the network is: *plymouth* (all lower case)

3. Open up a web browser. Attempt to go to <https://www.google.com>. You will be redirected to an Aruba Networks login screen. Enter an email address and click "Log in".
4. You should then be redirected to Google.com and be able to access the internet on your device.
